Restriction Management System

Component Restrictions 🔗

Some components in the composable storefront are restricted to certain users based on their authentication state and role.

Authentication-Based Restrictions 🔗

- **My Account Menu**: Restricted to logged-in users.
- **Anonymous Consent Banner**: Restricted to anonymous users.

Role-Based Restrictions 🔗

Navigation nodes in the My Account menu are further restricted based on user roles. The available roles are:

- **Customer**
- **Approver**
- **Manager**
- **Unit Level Order Viewer**
- **Administrator**

Component to Role and State Mapping 🔗

Component	Restricted To
Anonymous Consent Management Banner	Anonymous
Anonymous Consent Management Open Dialog	Anonymous
My Account	Login
PaymentDetailsLink	Customer
OrderHistoryLink	Customer
AddressBookLink	Customer
ApprovalDashboardLink	Approver
MyCompanyLink	Administrator
UnitLevelOrderLink	Unit Level Order Viewer

1. Backoffice Configuration 🔗

To enable user login:

1. Navigate to **Customers** and select the **Password** tab.
2. Set a password for the user.
3. Set **Disable Login** to **false**.

These users need to be activated to access all B2B functionality:

Email	Role(s)
linda.wolf@rustic-hw.com	Administrator
hanna.schmidt@rustic-hw.com	Approver, Unit Level Order Viewer
william.hunter@rustic-hw.com	Customer
matheu.silva@rustic-hw.com	Manager

2. Contentful Configuration 🔗

- For each role, a **tag** was created and will be imported during the **Getting Started** setup.

- To restrict a component to a specific role, add the respective tag to the component.

- The connector will ensure that components are only displayed to users with the matching role tag.
